

## Missouri UFO Newsletter

# New International Director For MUFON

David MacDonald, member of MUFON's board of Directors and State Director for Kentucky replace Clifford Clift as International Director (ID) February 1, 2012. Clift stepped down as ID due to personal commitments and family health issues, which will require his full attention. He said, "MUFON needs a full time ID and he will not be able to provide full time leadership under these conditions".

Clift also said, "I know my limitations and the requirements of time MUFON needs to be successful. I can't be successful with both." Clift would like to express his deep gratitude to MUFON subscribers/members for their commitment in seeing that MUFON achieves the fulfillment of its goals and thanks everyone for their continued support over the past two years. Cliff goes on to assure, "MUFON has come a long way in a positive direction and I'm excited to say that the Mutual UFO Network is in good hands with David. His level of

dedication and his leadership skills will be an incredible benefit to our organization. David will be a very effective International Director for MUFON."

David MacDonald is no stranger

patchers. Additionally, he owns and runs Flamingo Air, a Charter Airline. Clifford continued his praise, "David MacDonald has excellent credentials within MUFON and the business world.

David's business background and knowledge of the UFO phenomenon is very sound and successful. He brings much to the table as the new leader for MUFON."

When asked how David felt about taking over the position of MUFON's International Director, he said, "I'm excited about taking over the leadership role of MUFON and I'm looking forward to working with all the great people in the MUFON organization."

to MUFON and the organization's mission. David is currently on MUFON's Board of Directors, Assistant Director of Investigations, MUFON's Star Team Administrator, the conductor of testing for new Field Investigators and much more. As a business man, over the years David has had numerous successful businesses. Currently, he runs a school for Pilots and Aircraft Dis-

# New Missouri UFO reports describe 'dark, wobbly' and cylinder objects

By Roger Marsh

Missouri residents continue to observe anomalous objects in the sky as two new UFO sightings reported to the Mutual UFO Network ([MUFON](#)) witness reporting database are logged in for March 2, 2012.

In MUFON [Case 36201](#), two witnesses report watching a "dark, wobbly" object with flashing lights while they were driving on February 27, 2012. The driver saw the object first and pointed it out to the passenger.

"I looked up and there was a wobbly thing hovering," the reporting witness stated. "It was dark and had three white lights that faded in and out. The lights started pulsing faster as it picked up speed, flashed randomly and darted like lightning, but stayed in view and began hovering again."

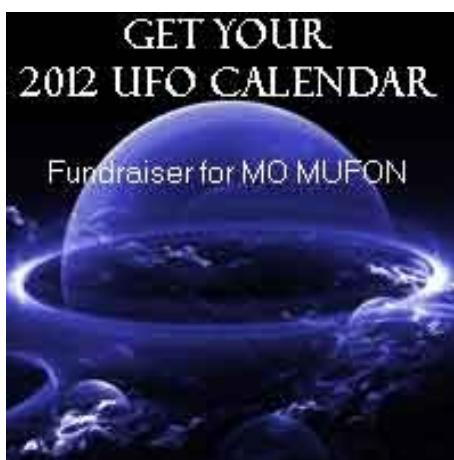

In MUFON [Case 36199](#), a silver cylinder-shaped object was reported in the sky by a parent waiting to pick their child up from school between 2:50 and 3 p.m. on March 1, 2012.

"As I was looking through the windshield, the object came close enough to where I could see a silver cylinder shape with no windows," the witness stated. "I also noticed a jet in the sky and the silver cylinder object was moving (from west to east in a straight direction) faster than the jet (which was moving east to west

and further above the object)."

No town names were mentioned in either report. No images or videos were included with either report. The above quotes were edited for clarity. Please keep in mind that most UFO reports can be explained as something natural or manmade.

*Roger Marsh is the new Editor of the MUFON Journal and is a reporter for [www.examiner.com](#)*

Visit [www.missourimufon.org](http://www.missourimufon.org) to register. Tickets are \$35 each for MU-FON members, and \$40 for non-members.

**Watch missourimufon.org for the most recent meeting updates!**

If you have not ordered your MUFON Journal yet please visit [www.mufon.com](http://www.mufon.com)!

## QR Code link for Missouri MUFON Constant Contact Mailing List

Just scan the following code into your smart phone and you'll be able to join our Missouri MU-FON mailing list, which is the method we will be using to send event information and newsletters in the near future. Or click the link at the bottom of my signature line in recent e-mails to the Yahoo chat list.

## Volunteers Needed for MO MUFON Conference

Missouri MUFON depends on volunteers to make the conference happen. We need A/V experts, Computer geeks, Sound techs, people to move tables out of the room and set up chairs, and registration assistance.

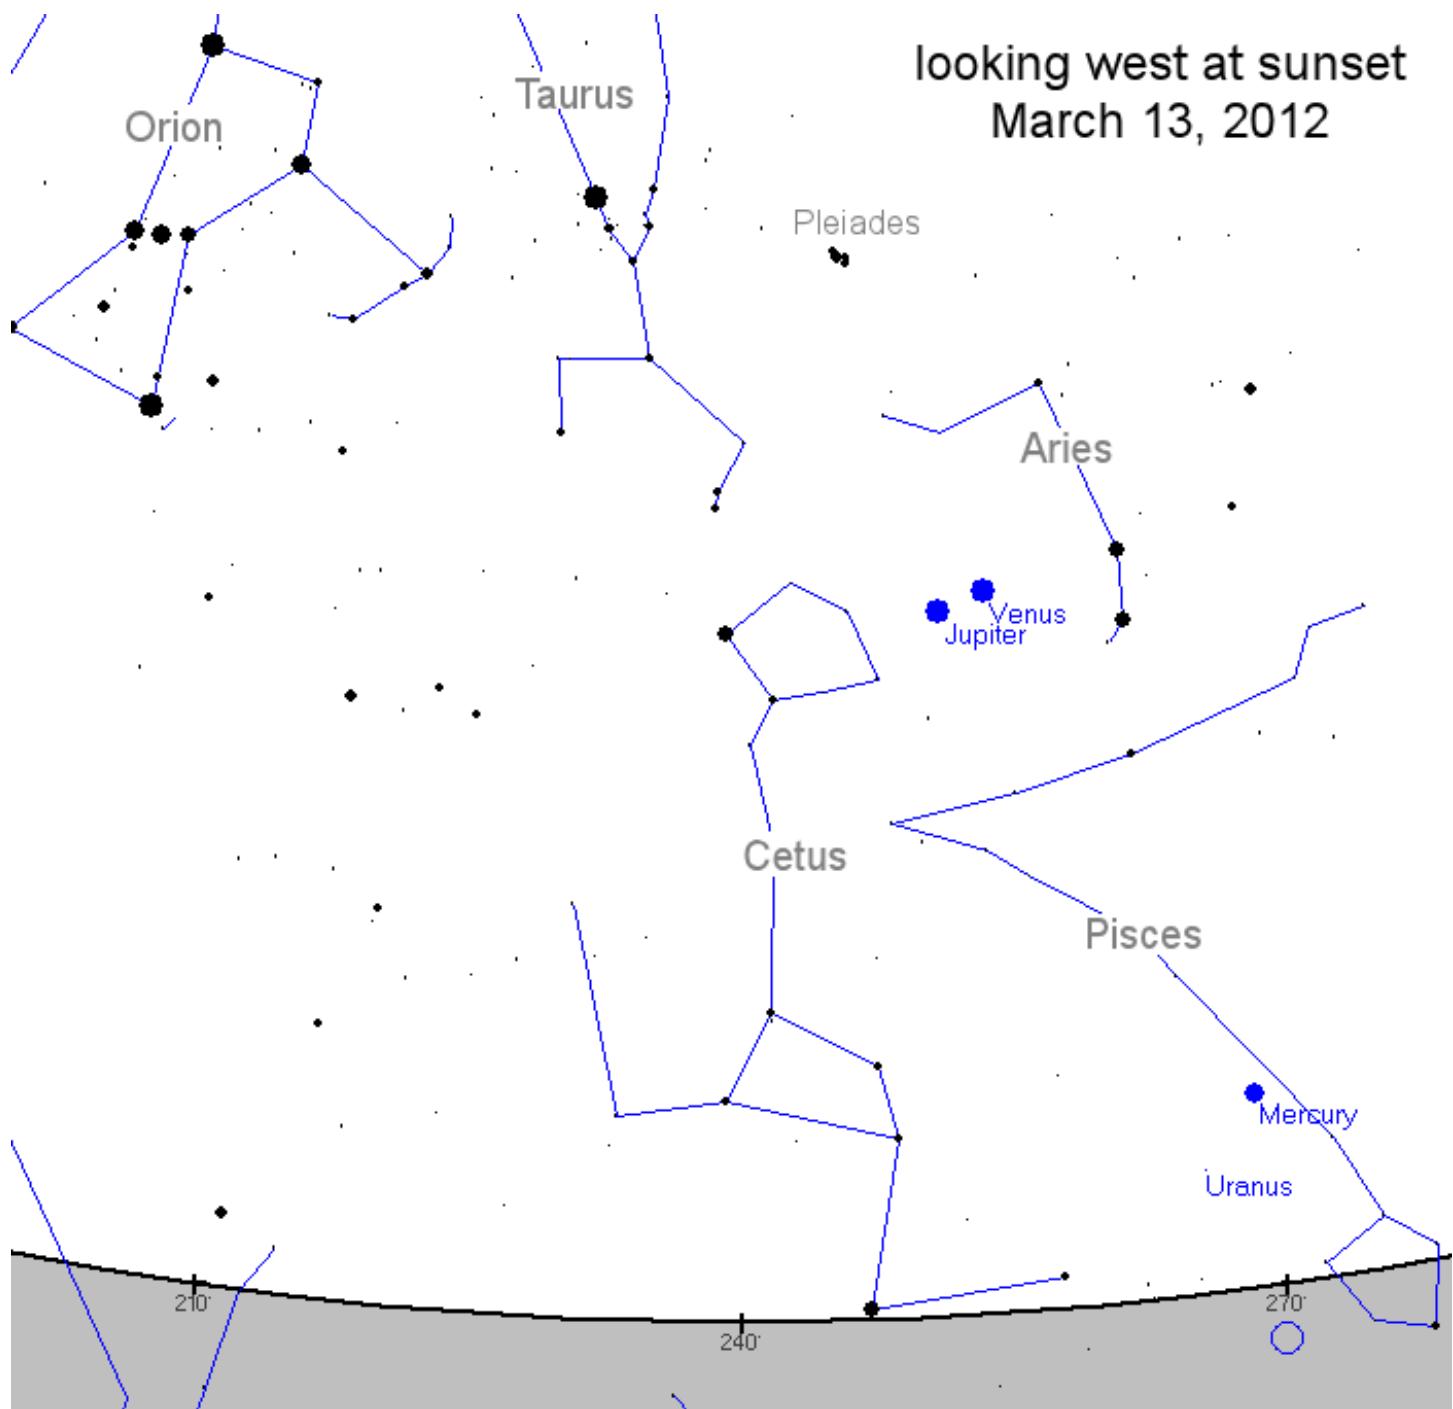

Please contact Margie Kay [margiekay06@yahoo.com](mailto:margiekay06@yahoo.com)

# March Skies Present Brilliant Views of Planets

According to NASA's website science.nasa.gov March is an opportune time to observe several planets. Venus and Jupiter are making fantastic displays in the Western sky right now, but on March 12 and 13 the two will be only three degrees apart, and in

the sharpest area of vision (within 5 degrees) that the human eye can observe. Also visible is Mercury, just Southwest of Jupiter, and Mars can be observed closest to Earth on March 5. It appears at sunset and rises overhead at midnight, and is easily observable by

the naked eye. Missouri MUFON has received a number of UFO reports recently, that were actually Venus and Jupiter, which are so brilliant that many people can't believe they are actually planets. Please do not report these to MUFON!

## St. Louis Area MUFON News

By Debbie Ziegelmeyer  
State Director

Our February St. Louis area meeting marked an historic first, a guest speaker via Skype. Our speaker was my brother Chuck Zukowski from Colorado Springs, Colorado. Chuck gave a power point presentation on the recent Colorado Cattle Mutilations he has been investigating, followed by a thirty minute question and answer session. This was all done at Culpepper's live from Colorado Springs and shown on the TV screen. It was truly a first for St. Louis MUFON. This event was so successful I hope to present other future guest speakers in the same manor.

Missouri Sighting reports were down again in February but have picked up in the southern part of the state in March. These sightings are still under investigation. February was also a month for Earthquakes in Missouri which were located near the Boot Heel. Missouri experienced a 4.0 followed by a 2.5, neither of which caused damage but reminded us of how active the New Madrid fault still is.

Last week I attended the UFO Congress Conference in Scottsdale, Arizona which was very spiritual this year. Several of the speakers spoke of orange orbs seen across the world in increas-

Photo by Margie Kay

ing numbers and their theories of their meaning an origin. Chuck Zukowski began the conference as the first speaker with a power point presentation on his investigation into recent Cattle and Horse Mutilations, Peter Robbins gave a very touching tribute to Bud Hopkins, and Jaime Maussan talked about the latest sighting news from Mexico and across the world.

The highlight for me was Travis Walton's presentation, and interviews with two of his co-workers who were in the truck with him during the 1975 incident. They told their accounts of the initial abduction of Travis and their efforts to find him afterwards. It was nice to see the three of them together.

The next St. Louis area meeting

will be held the third Wednesday of the month as usual at Culpepper's Restaurant located at Hwy 270 and Olive Blvd. from 6:30pm to 9:00pm.

This month's Wednesday meeting will fall on the 21<sup>st</sup> and we will host a video of Jaime Maussan's presentation given in Arizona last week.

The end of Jaime Maussan's presentation concerns an event that is still under investigation by me and affected us on a local level. At the end of the video I'll speak about what happened in Jefferson County, in Northern Missouri, and is occurring across the world. I'll also talk about what I have uncovered and let you listen to audio from my investigation of this strange phenomenon. END
